CONTENTS OF VOLUME 14

Number 1

Editorial 1

Original Research Reports

Acoustic absorption within human teeth during ultrasonic descaling 2
A. D. Walmsley, A. R. Williams and W. R. E. Laird

Disinfection of dental surgeons' hands with detergent preparations of triclosan and chlorhexidine 7
E. A. Field and M. V. Martin

Feasibility of using automatic image analysis for measuring dental plaque *in situ* 11
J. Verran and M. D. Rocliffe

Examination of the failure of a Wiptam-post-restored tooth 14
K. R. Williams and C. H. Watson

The use of nylon as a denture-base material 18
G. D. Stafford, R. Huggett, A. R. MacGregor and J. Graham

Surface roughness of dental stone casts from alginate impressions 23
F. M. S. Keuter and C. L. Davidson

Investigation into the wettability of poly(methylmethacrylate) *in vivo* 29
M. D. Murray

A case of mutual need—the elderly and the dental profession in the USA 34
H. Barry Waldman

The value of an amalgam condensation exercise in pre- and postgraduate education 38
J. E. Wiegman, D. J. Purdell-Lewis and A. C. M. van de Poel

Short Communication

The Maryland bridge: a useful modification 42
P. M. H. Dummer and J. Gidden

Book Reviews 44

Original Research Reports

The influence of cavity geometry on heat transmission in restored teeth 47
Th. A. M. Spierings, M. C. R. B. Peters, F. Bosman and A. J. M. Plasschaert

The effect of overnight drying and water immersion on candidal colonization and properties of complete dentures 52
G. D. Stafford, T. Arendorf and R. Huggett

Microcomputer methods for measuring the silent period of the masseter electromyogram after the jaw jerk reflex 57
G. R. Barker, D. G. Wastell, P. S. Rothwell and A. Seifalian

Electrostimulation in the treatment of pain in the mandibular dysfunction syndrome 62
P. R. Geissler and P. M. McPhee

Classification of centric occlusion disturbances on the basis of intra-oral records 65
M. Kleinrok

Methodology in a sample of the temporomandibular joint literature 70
J. P. Smith

A sensitive conductimetric method for measuring the material initially water leached from dental cements. 4. Glass-ionomer cements 74
P. J. Brookman, H. J. Prosser and A. D. Wilson

Short Communications

The role of the mylohyoid nerve in mandibular tooth innervation 80
P. A. Heasman and A. D. G. Beynon

Empirical and functional posterior palatal sealing of full upper dentures: a comparative study 82
W. Jozefowicz

An investigation of the adequacy of interproximal matrices commonly used with posterior composite restoratives 84
H. A. F. Shennib and N. H. F. Wilson

Number 4

Review

Dental materials: 1983 literature review. Part 2 139
E. C. Combe (Editor)

Original Research Reports

Pain dysfunction syndrome and osteoarthrosis related to unilateral and bilateral temporomandibular joint symptoms 156
R. J. M. Gray

Diagnosis of tooth vitality by crown surface temperature measurement: a clinical evaluation 160
K. B. Fanibunda

The treatment of results for tensile bond strength testing 165
J. F. McCabe and A. W. G. Walls

The development of surface hardness in visible light-cured posterior composites 169
D. C. Watts, V. McNaughton and A. A. Grant

Short Communications

Tear energy of impression materials 175
M. M. A. Vrijhoef and P. G. F. C. M. Battistuzzi

Radiopacity of posterior composites 178
O. E. Omer, N. H. F. Wilson and D. C. Watts

A comparison of two passive aspirating systems 180
D. C. Craig and J. P. Rood

International Abstracts 183

International Conference Diary 184

Number 5

Review

Implantable prostheses and reconstructive materials in oral and maxillofacial surgery 185
D. F. Williams

Original Research Reports

Porous root replacements: reactions of the surrounding tissues 202
M. M. A. Ramselaar, P. J. van Mullem and J. R. de Wijn

Dental anxiety and regularity of dental attendance 209
J. Woolgrove and G. Cumberbatch

The development of high impact strength denture-base materials 214
R. Rodford

Aspects of the metallography of some pre-formed root canal posts and dentine pins 218
N. J. Ray

Short Communications

How reliable is your patient? A comparison of subjective complaints and clinical findings in a group of temporomandibular joint patients 223
R. J. M. Gray

Weight loss of four calcium hydroxide-based materials following a phosphoric acid etching and washing cycle 226
F. J. T. Burke and D. C. Watts
